PROFILE

Frontend Developer specializing in React, Next.js, TypeScript, and JavaScript, with a strong foundation in computer science and competitive programming. Experienced in building responsive, user-focused web applications, writing clean code, and collaborating with teams to deliver high-impact digital solutions.

EXPERIENCE

MeetusVR  , Frontend Developer

09/2025 – Present | Cairo, Egypt

Tseppas 

- Boosted website performance by 70% via image optimization, tree shaking, code splitting, and bundle reduction (FCP, LCP, CLS monitored).
- Refactored class components to functional components for cleaner, maintainable code.
- Led full UI overhaul, enhancing UX and interactivity.
- Developed cart checkout flow with tax calculation and location-based shipping using Google Maps.
- Created wallet pass widget script enabling mobile wallet access via dynamic QR codes.
- Implemented Saudi market localization, adapting tags, currency, product catalog, and imagery per country.
- Worked on migrating the application from Create React App to Next.js 14, modernizing the architecture and build pipeline.

Dashboard

- Developed gift card and wallet pass pages using JSS, MUI, Redux, Axios.
- Implemented wallet geofencing to control location-based access.
- Conducted a full dashboard audit to improve quality and consistency.
- Added multi-country support, localizing tags and order data per region.
- Built customer touchpoints to capture activity insights such as orders, visited pages, and cart contents.

Chat Services 

- Led a full UI overhaul, implementing a new design from the ground up.
- Refactored a disorganized codebase and corrected the WebSocket implementation by subscribing to the proper topics for reliable real-time messaging.

MeetusVR 

- Delivered a complete UI redesign across all pages, adding scroll-based animations with AOS.

Yumazing 

- Redesigned UI, optimized mobile responsiveness, and increased homepage performance by 150%.
- Implemented guest checkout and Framer Motion animations.
- Implemented promo code functionality at checkout.

Las Vegas 

- Overhauled UI, improved mobile responsiveness, and added Framer Motion animations.

Information Technology Institute (ITI),

03/2025 – 08/2025

Frontend and Cross Platform Mobile Development - Internship

Hybrid, Cairo University

front-end and cross platform Specialization - is a product based program that focuses on learning the latest technologies in front-end track and also the mobile cross platform technologies. Technologies: HTML, CSS, JavaScript, TypeScript, Node, React, Next, React Native, Flutter, jQuery, Bootstrap, Git, PWA, Design Patterns, Secure Coding, UX Design, Responsive Design, Soft Skills

Funding Pips , <i>Funded Forex Trader</i> Technologies: MetaTrader 5 - Passed 2 evaluation phases - Traded on a \$5k funded account	06/2023 – 07/2023 Remote, Dubai, UAE
BeatStars , <i>Music Producer</i> Technologies: FL Studio 670,000 streams - More than 80 satisfied customers	07/2023 – Present Remote, Texas - United States

PROJECTS

SkillSwap - Full Stack Skill Trading Project 	07/2025 – 08/2025
A full-stack web and mobile app that enables users to trade skills or offer paid lessons, featuring AI-generated learning milestones, scheduling, chat, and user reviews. Technologies: React, React Native, React Router, Tailwind, Firebase, Gemini API, Context API	
Taskify - Full-Stack Task Manager Project 	06/2025 – 06/2025
Full-featured task management web app designed for seamless team collaboration and productivity Technologies: React, React Router, Redux, Express.js, JWT, i18n	
News & Blogs 	12/2024 – 01/2025
A web application that provides news and blog features, allowing users to view and interact with news articles, create, & edit blog posts. Technologies: React, SCSS, Context API, Restful APIs, Git, Vite, Vercel	
Calculator 	02/2025 – 03/2025
A simple responsive web calculator with multiple themes. Technologies: React, TypeScript, SCSS, Context API, Vite, Git, Local Storage	

SKILLS

Programming Languages HTML, CSS, JavaScript ES6+, TypeScript, C, C++, Python, Dart	Frameworks & Libraries React, Next, Redux, Tailwind CSS, SASS, Bootstrap, jQuery, React Native
Cloud & DevOps GitHub Pages, Vercel	Databases Microsoft SQL Server, Node.js, Express.js, Firebase
Other Skills Git, Vite, NPM, Yarn, Figma, CMD	

EDUCATION

Bachelor's Degree in Computer Science (MTI)	2019 – 07/2023
Graduated with 3.09 GPA & "A" Grade in Graduation Project	

LANGUAGES

Arabic Native	English Very Good
-------------------------	-----------------------------

CERTIFICATION

Participation In The 8th Egyptian Olympiad In Informatics (2015)

Ministry of Communications and Information Technology (MCIT), Egypt

- Top 100 in EOI 2015
- Top 20 in Egyptian Qualifications For IOI 2016
- 160+ Problems Solved On Codeforces.com

Advanced Data Structures and Algorithms Camp (2016)

The American University In Cairo (AUC)

AAST's Problem Solving Bootcamps For IOI 2016

Arab Academy For Science & Technology (AAST)

- 2 problem solving bootcamps

Web Development Foundations

Egypt FWD, Ministry of Communications and Information Technology (MCIT)

- Basics of web dev. (HTML, CSS, Wordpress)

HTML, CSS, JS, & GIT Bootcamps

ElZero Web School

JavaScript Simplified

Web Dev Simplified - Kyle Cook

React Simplified

Web Dev Simplified - Kyle Cook
